

## **DiVA Series**

# **A90 Integrated Amplifier**

### **Feature Highlights of this latest addition to the DiVA range**

Following on from the ground-breaking, award-winning DiVA A85 Integrated Amplifier, Arcam's DiVA A90 has been developed with even higher performance levels to meet the demands of today's market. With a more advanced power supply, the A90 is an ideal match for DVD Audio, and has the optional ability to include Arcam's new 7.1 multichannel upgrade board.

The A90 is the latest in a long line of world-class Arcam hi-fi amplifier designs and represents a combination of technical excellence, flexibility, ease of use and superb sound quality that will ensure its classic status in the future.
